Claims 1, 4, 5, 7, 8 and 15 have been amended, and claim 17 has been added by the amendment dated March 9, 2005.

Claims 1, 4, 5, 7, 8, 11, 12, and 14-17 are pending.

The rejection of claims 1, 8, 15, and 16 under 35 USC 112, first paragraph rejection is withdrawn by the examiner because of applicant's response on page 5, particularly in view of the second par. of page 5, and the Johnson paper submitted along with response as an exhibit.

The rejection of claims 7, 8, 11-12, and 14-16 under 35 USC 112, second paragraph is withdrawn by the examiner because of applicant's claim amendment.

The following formalities must be corrected before this application can be forwarded to the Office of Publication.

Claim 11 as set forth in the latest claim amendment is objected because the claim as written does not contain the period at the end of the claim.

Figure 3 and the specification are objected because neither the figure nor the specification contain any sequence listing in reference to the sequences as disclosed in the figure. The figure contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). While a paper copy of the sequence listing together with the computer readable file have been entered, it does not appear that the paper copy contain the nucleotide sequences as recited in the cited figure. Applicant must comply with the requirements of the sequence rules (37 CFR 1.821 - 1.825) in order to be fully responsive to this action.
